

The Theme for the
2024 Convention is

*“Letting in the Light
from Above”*

based on this Mountain Top Vol I message:

Lift Up Your Heads

Can ye see the faint flush of the
daybreak, ye Children of Light? It
hangeth low in the cosmic darkness
as yet, but eyes not holden may catch
a gleam of its brightness, ears not
dulled, hear the clarion note in the
distance. The Day Star is rising, rising,
rising, and, though sky and earth
seem drenched with blood-red
reflections – the first emanations of
darkness – the golden light cometh to
redeem, to sanctify, to bless the hard-
pressed children of Maya.

Lift up your heads, strengthen
your weakened knees, bind closer the
burdens ye bear, turn your eyes to the
East, and watch, wait and work.

– Hilarion

*The Social Science meeting on Saturday,
August 10 is a time to share reflections on
the Convention theme and the place of the
Temple in your life. Remarks of up to 300
words are welcome.*

*If you cannot be with us in person,
offerings received by July 31 may be
translated and read at that meeting in the
Temple. Please email to:
templeoffice@templeofthepeople.org*

THE TEMPLE OF THE PEOPLE was founded in
November of 1898 in Syracuse, New York, and
moved to Halcyon, California, in 1903. The
Halcyon community, clustered around the Blue
Star Memorial Temple, is actively dedicated to
living the Teachings of the Temple.

The Temple Teachings are firmly rooted in
Theosophy and Indigenous American wisdom,
and are filled with practical directions which
help in all aspects of our lives. These teachings
help cultivate the ability to realize that we are a
balance of both the human and the divine. The
freedom attained through this equilibrium
grows as the desire, the wonder, and the love
of learning spiritual truths energize our efforts
to make divine spiritual unity part of our
everyday affairs.

The foundation stones of the Temple are
Religion, Science, and Economics: There can be
no true religion without its scientific basis, and
there can be no right system of economics not
based on a science that is religious and a
religion that is scientific. These three aspects
are of equal importance.

The Temple of the People has always
recognized the value, importance, and self-
responsibility of each individual. Its reason for
being rests on the inviolability of the Golden
Rule.
